PROJECT PROFILE OF
Woolworths Admin Building

LOCATION
Rosny, Tasmania

Name of Client: Woolworths
Year of Construction: 2023
Construction Period: 16 weeks
Contract Sum: \$2,228,000

DESCRIPTION:

Vos successfully navigated numerous challenges throughout this project, including multiple tendering rounds necessitated by the impact of Covid-19. Additionally, we effectively integrated documentation from two separate architects engaged by the client at different times, ensuring cohesion in both pricing and final outcomes. Spanning approximately 2400m², this project entailed a substantial fit out with a focus on high-quality joinery. The resulting amenities have garnered praise, likened to those found in upscale hotel lobbies.

Given the original construction date of 1986, much of the scope involved ensuring compliance with modern standards, encompassing elements such as ceilings, balustrades, doors, fire safety measures, and flooring.

The fully operational kitchens on both ground and level 1 are pivotal to the daily operations, catering to the needs of over 100 staff members. Despite the complexities, Vos delivered the project on schedule and within budgetary constraints, achieving client satisfaction and marking a significant success for all stakeholders involved.
